

# 27 Stallion Lane

Home Sweet Home! This beautifully remodeled home has new windows, new insulation, a new furnace and new forced air ducting so you can stay cozy warm all winter long without any effort. All your effort can be spent cooking in the gourmet kitchen. In the open country kitchen you'll find lots of granite counter space, a 6 burner cooktop, double convection ovens, a full built in refrigerator, and top of the line cabinets including a double pantry and a recycling center. The open floorplan includes large view windows from the kitchen and the family room showing off the panorama of the Wind River Mountains to the south. There is plenty of solar heat for the winter while an opening skylite provides a pleasant draft for the summer. It feels like airconditioning. The main bath has granite and tile, double sinks and a jetted tub. It's a wonderful home, AND it's perfect horse property bordering BLM with miles of trails!
